It is hygienic and bacteria free product, with powerful properties that remove encrusted grease and dirt, ideal to get rid of the most stubborn grime, specially from flat-top griddles, grills, oven trays and other kitchen or cooking utensils made of iron or steel. They are widely used in WC, Kitchen, BBQ, AutoMobile, hard skin and callus of feet and hands, etc. It preventing the proliferation of dead cells of skin and returning the skin to its natural aspect and softness. To some extent, the products have the function like wipes, cleaning ball, or callus remover, etc, but it is more safe and healthy.

Pool, Toilet pumice stone

Cleaning stone for kitchen, grill

Foot pumice stone

Foam glass(pumice stone,cleaning block) is an ecological product made from recycled glass. It is obtained from the fusion of glass powder through at special process at high temperatures, in which, cells isolated from each other are created, preventing the absorption of liquids or steam and the proliferation of bacteria, fungi and micro-organisms that survive in them.

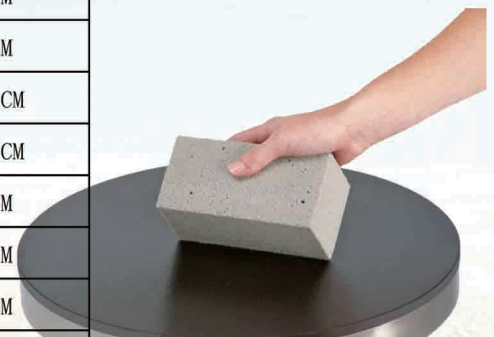

1. Devoid of Eco-toxins (无毒)
2. Non irritating (无刺激)
3. Hypoallergenic (无过敏)
4. Dermatologically safe (对皮肤安全)
5. No odor (无气味)
6. Rapid and effective cleaning(快速，有效的清洁)
7. No chemical products (无化学成分)
8. Harmless to health (对健康无害)
- 9 Respectful of the environment (对环境无害)
- 10.No harmful effects on living organisms (对生物无害)

Foam glass works through gentle abrasive action. Takes over where other abrasive cleaning aids leave off. It scours away mineral deposits, rust, stains and scale from sinks, tubs and showers. It removes unsightly toilet rings. Cleans baked-on food, grease and carbon buildup in ovens, on grills and iron cookware. It won't harm hard surfaces. Safe for skin. It is safe to use and store around children and pets.
