Micro Biology Lab

Physical Lab

Washing Lab

We establish our quality control system according to ISO 13485 and MDD93/42/EEC strictly. Ensure purchase, R&D, production, store, sales and service is in control.

Quality control system in production process includes, supplier control system, incoming material control system, in-process inspection control system, outgoing inspection system, customer's complaint control system.

Laboratory test system, we got physics & microbiology laboratory. In physics lab we can test strength, peeling & bursting strength, hydrostatic pressure, abrasion resistance, run-off, absorbency, absorption time and so on. In microbiology lab we can test bioburden and other sterile test.

Market Development

Our products have been sold to all over the world, and now we are sincerely welcome your inquiries and orders.

We would like to build business relationship with you for long term.
