

# Live the way as TTecWay

## TTec Limited

China Manufacturer  
of E scooter & Outdoor cycle

Robotics & Unmanned Tech  
Booth number CHH15

Committed to Detail-oriented Products and Worry-free Service  
[www.ttecway.com](http://www.ttecway.com)

## COMPANY PROFILE

**TTec Limited** is a technology company which is committed to provide technological way of life. Based on the strong experience in outdoor and electronic cycle, TTecWay wins global customers' trust and marketing competition by its fashion and popular design, top quality and golden service. TTecWay is one the earliest enterprise which has the certificate like CE, RoHS and FCC, En71, EN15194, etc.

Since the rapid development of TTecWay, and meanwhile in order to catch the trend of the self balance scooter, TTec Limited rent about 2500 square meters factory, employ more than 500 skilled employees including engineers, workers, QC, has 7 Auto-production line, and monthly self balance scooter output as large as 60,000sets.

TTecWay hoverboard and electric scooter gains such a great success that it unexpectedly changed the way of communicating, changed the life of school students, becomes a popular brand-news sport and initiated a historical innovation and revolution to transport industry. TTecWay makes walking such interesting and amazing. Up to now, TTecWay electric self balance scooters have been sold to more than 30 countries. And TTEC owns warehouse in Germany and Moscow, and support customer to check and inspect the goods locally, and we also support online shop customers for drop shipping as low as even one orders. And we also have after sale service centre in Czech, provide customers one year guarantee for all our products. The consumers including students, office workers, commuters, sports enthusiasts and even police, safety guard is so huge that more and more sharp dealers join in this business with great confidence on its prospect. These dealers don't only include those selling segways, cars, bicycles, sports, but also more from other line of business.

As well as the big success on the self balance scooter, TTec Limited is devoting more and more energy onto the new scooter development, such as electric wheelchair, drift car, hovershoes, with

which changes people's life greatly. TTec Limited did, does and will insist on win-win cooperation with customers. We welcomes clients including wholesaler, dealer, online shop, store, outdoor products and electronics practitioner, etc. TTecWay will satisfy and benefit you by our 100% profession and, enthusiasm, meanwhile gains great business opportunity and development in the technological way.

## Why Choose TTecWay

- ★ We are a leading electric scooters manufacturer in China, 2500 square meters factory ,and you are welcome to inspect our factory
- ★ More than 500 skilled employees including engineers ,workers , QC ,7 Auto-production line
- ★ Monthly output as large as 60,000sets self balance scooters
- ★ We OEM for the USA first and third brand of scooter
- ★ 128 clients from all over the world all choose TTecWay
- ★ 4 times100% QC inspection before shipment
- ★ Top quality, professional service with competitive price
- ★ TTecWay provide one year guarantee

## Our Service Including:

### ★ Marketing consulting:

TTecWay will recommend newly developed self balance scooter which is currently popular and fit the market to our clients ;

### ★ Timely quotation:

TTecWay will quote for customers within 2 hours;

### ★ Customized logo and Packaging:

TTecWay is able to provide customized packaging and logo;

### ★ Quality and Guarantee:

TTecWay provide our customers one years guarantee on TTecWay self balance scooter;

### ★ Economic shipping solutions:

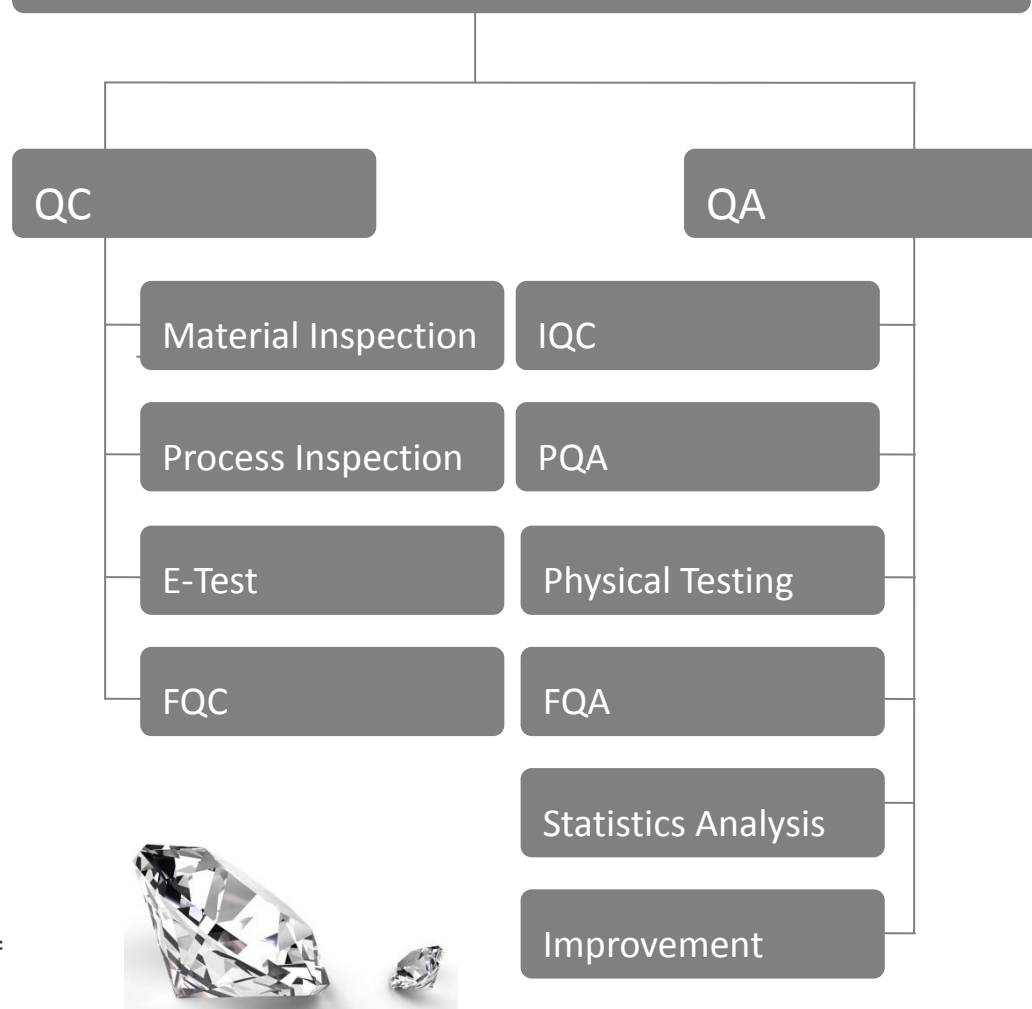

TTecWay will provide our customer the most economic, security ,timely shipping solution for free

### ★ After sale service:

TTecWay provide our customer 7\*24 worry free service .

info@ttecway.com

## TTecWay Quality Control Flow

### ★ Germany & Moscow Warehouse, one drop shipping:

TTecWay has warehouse in Germany and Moscow, support goods pick up locally

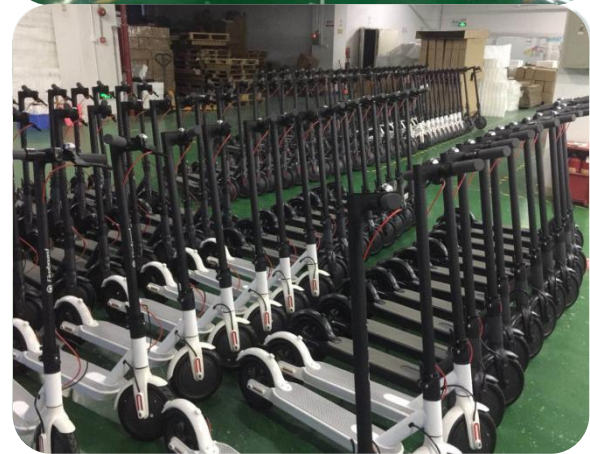

### ★ Czech republic and Moscow aftersale service:

TTecWay provide Europe local repair service .
