j Company Profile 公司简介

Our company Jia Jun auto accessories manufacturing Co.,Ltd. Has been in titanium performance parts business for over 10 years,We are the most earlieres manufacturer for titanium exhausts in China.Our products is already selling to major part of the world,such as: USA,Germany,Japan,We are the OEM manufacturer of lots of brand names of these country. We also willing develope some special designs for our customer.

Our company has already have pass the ISO standard and we are fully respect our customar 's patents and copyrights.If the customer provides their own designs,We will guarantee that they will be the only one can have that products.

The Product

Aerospace Grade Titanium

JIA JUN exhaust systems are made exclusively with aerospace grade titanium alloy. The performance benefits of titanium in automotive exhaust applications have been established for years. Low weight, high strength and excellent resistance to corrosion and rust – titanium works! However, because of the high costs traditionally associated with titanium, its use has been mostly limited to race cars and top-of-the-range road cars.

Each JIAJUN exhaust system is:

- Made with full aerospace grade (GR2) titanium alloy for super lightweight performance (60-80% weight reduction in most applications)
- Developed with ultra strong SEAMLESS piping – more resilient to speed bumps and scrapes than the seam-welded pipes most manufacturers use
- Created with ultra high-flow pressure tooled design – our pressure toolings reduce / eliminate multiple welds and improve flow 10-15%
- Designed to utilize minimal bends and optimum pipe sizes, allowing for more flow and increased power
- Manufactured to be a complete bolt-on syste
- Packaged with everything needed to install the product

From the race track to the car show to the street, JIAJUN is dedicated to making high quality performance titanium exhaust systems that will meet your needs and budget.

The Result

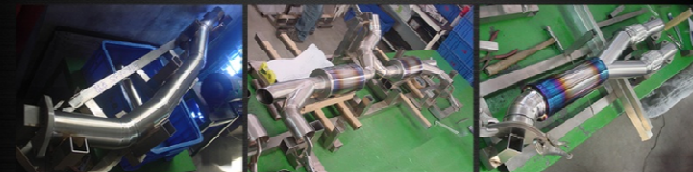

When you put it all together, JIAJUN exhaust systems are second to none.

- Quality – finest materials available along with high craftsmanship
- Performance – extremely lightweight combined with high horsepower gains
- Style – unmatched style of a full titanium exhaust designed specifically to fit your vehicle

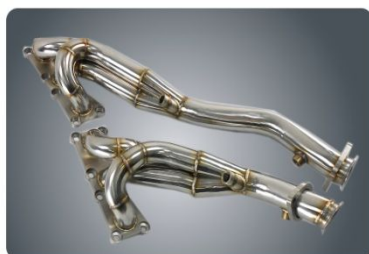

Our commitment to quality, performance and style stands out among all the others.

j Product Type 产品类别

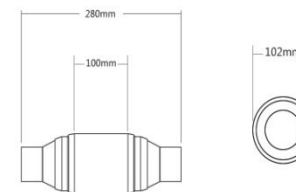

1. Manifold series /排气头蕉系列
2. Down pipe /Test pipe Series 头段
3. Catlylytic /high flow cat Series 高流量催化
4. Catback series 中尾段
5. Performance Muffler silencer series 性能消声器
6. Exhaust tall tips series 排气管尾咀
7. Exhaust accessory :
 - exhaust flanges 排气管法兰
 - exhaust V-band
 - exhaust gaskets 排气管垫片
 - exhaust flexible pipe 排气软管
 - exhaust clamp 排气管喉箍
8. Intake pipe/tube 进气管
9. other Racing accessory 其它赛车配件

1 Manifold/Header series products 排气管头蕉系列

2 catalytic /high flow cat Series 高流量催化
