

LASER TRAINING CARTRIDGE

The Training Series takes your capability, capacity, performance, and tests them to the limits. The G-Sight Training Laser is a high quality cartridge with a brass casing with a precise focused laser. Improve your shooting skills with the caliber specific Training Series lasers. Featuring a revolutionary firing-pin-activation that allows you to train without going to the range. Easily install into the chamber for instant training sessions using the bullet impact red laser dot. Our unique system allows the shooter to instantly see the point of impact with each shot. Once the firing pin hits our G-Sight training cartridge, a laser dot is placed on the target simulating the path of real ammunition. Military, Law Enforcement and Home Defenders can train to any situation for different scenarios at any time. Building and maintaining accuracy will keep the shooter keen and sharp when it counts.

.40 S&W

WHY TRAIN WITH LASER CARTRIDGES?

TRAIN AT HOME

Laser Training allows shooters to practice continually, while maintaining and improving their skills away from the range.

SAVE MONEY

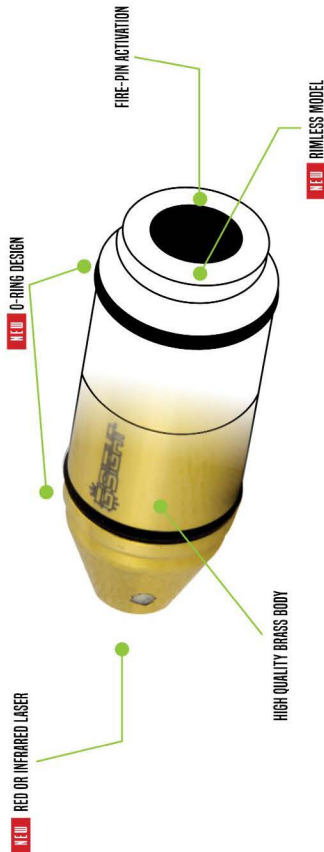

Range time is always a great time but ammo, and range fees can become costly. A session of laser training essentially pays for itself.

PERFECT FUNDAMENTALS

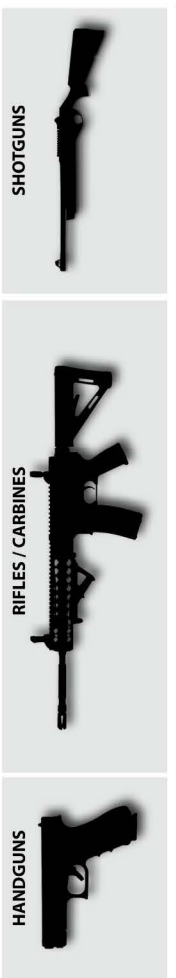

Improve your trigger control with no recoil and build your confidence when pulling the trigger. Practice shooting and non-shooting drills so you are prepared.

TACTICAL LASER SIGHTS

Combined with the use of superior technology and the latest in cutting edge design, G-Sight sets a new standard on laser sighting systems for today's most popular platforms. With almost limitless applications the G-Sight collection of full-size and compact laser sights is perfect for any hunting or tactical situation. Whether you have a pistol, rifle, or shotgun no firearm is complete without a laser sighting system from G-Sight.

EVO-KNIGHT

DRIVING THE FORCE OF INNOVATION

EVO-KNIGHT

The EVO-Knight Laser Sight gives you a design like no other. Built to withstand the toughest tactical and combat situations. The EVO-Knight has the ultimate versatility in its mounting platform options, mounting this laser to nearly any rifle with a picatinny or weaver rail. Adjustments are quick with the windage/elevation with the 4-point external option. Based on the task at hand, outfit this rifle laser with either a momentary On/Off Push Button or a momentary On/Off Pressure Switch. The EVO-Knight constantly emits an intense laser beam for accurate targeting.

LASER ILLUMINATOR

The Brute Tracker Laser Illuminator puts the hunt in your complete control. Track your game and paint your target with accuracy and confidence. Our green illuminators are designed specifically for night hog and coyote hunting, as hogs and coyotes are not sensitive to the green light. See more clearly and further without any white spill. The momentary/push button system allows you to switch between a steady and controlled activation. Adjust the beam easily for your preferred point of interest, from a wide spread to pinpoint dot. Utilize the Brute Tracker on your next hunt for the best results and come home with your prize.

BRUTE TRACKER

WHY USE A LASER ILLUMINATOR?

HUNTING & SPOTTING

Illuminate targets in low light conditions.

SEARCH & RESCUE

Precisely adjust the beam during search operations.

OUTDOORS

Premium light source and locator light, if lost.

FEATURES

Hard Anodized Aluminum Body

Durable construction, lightweight, resistant to corrosion, and protected against moisture.
